## Relational Algebra Exercises

Save this sheet and bring it to class for the next week or more. We will refer back to it frequently.

## Schema

Note: "breadth" is a boolean indicating whether or not a course satisfies the breadth requirement for degrees in the Faculty of Arts and Science.

```
\begin{aligned} & \text{Student}(\underline{\text{sID}}, \, \text{surName}, \, \text{firstName}, \, \text{campus}, \, \text{email}, \, \text{cgpa}) \\ & \text{Course}(\underline{\text{dept}}, \, \text{cNum}, \, \text{name}, \, \text{breadth}) \\ & \text{Offering}(\underline{\text{oID}}, \, \text{dept}, \, \text{cNum}, \, \text{term}, \, \text{instructor}) \\ & \text{Took}(\underline{\text{sID}}, \, \text{oID}, \, \text{grade}) \\ & \text{Offering}[\text{dept}, \, \text{cNum}] \subseteq \text{Course}[\text{dept}, \, \text{cNum}] \\ & \text{Took}[\text{sID}] \subseteq \text{Student}[\text{sID}] \\ & \text{Took}[\text{oID}] \subseteq \text{Offering}[\text{oID}] \end{aligned}
```

## Queries

Write a query for each of the following:

- 1. Student number of all students who have taken csc343.
- 2. Student number of all students who have taken csc343 and earned an A+ in it.
- 3. The names of all such students.
- 4. The names of all students who have passed a breadth course with Professor Picky.
- 5. sID of all students who have earned some grade over 80 and some grade below 50.
- 6. Terms when Cook and Pitassi were both teaching something.
- 7. Terms when either of them was teaching csc463.
- 8. sID of students who have earned a grade of 85 or more, or who have passed a course taught by Atwood.
- 9. Terms when csc369 was not offered.
- 10. Department and course number of courses that have never been offered.
- 11. SIDs and surnames of all pairs of students who've taken a course together.
- 12. sID of student(s) with the highest grade in csc343, in term 20099.
- 13. sID of students who have a grade of 100 at least twice.
- 14. sID of students who have a grade of 100 exactly twice.
- $15. \, \mathrm{sID}$  of students who have a grade of  $100 \, \mathrm{at}$  most twice.

- 16. Department and cNum of all courses that have been taught in every term when csc448 was taught.
- 17. Name of all students who have taken, at some point, every course Gries has taught (but not necessarily taken them from Gries).

## **Integrity Constraints**

Use the notation

 $\mbox{\tt <relational algebra expression} \verb>= \emptyset$  to write an integrity constraint for each of the following.

- 1. Courses at the 400-level cannot count for breadth.
- 2. CSC490 can only be offered at the same time as CSC454.
